1 Markov Blanket Recovery
Experiments

We present additional results across the 4 datasets used in Tables 1 — 4. Table 1 has results for the ALARM network, Table 2 for the Barley network, Table 3 for the Hailfinder network, and Table 4 for the Insurance network. The Hailfinder table (Table 3) is also presented in the paper, but repeated here for completeness. All results are rounded to the nearest integer for brevity, and thus may not total exactly 30 or 10.
